Introduction

The British Council for Offices Awards 2015

The British Council for Offices (BCO) exists to research, develop and communicate best practice in all aspects of the office sector. It delivers this by providing a forum for the discussion and debate of relevant issues.

One of the BCO’s primary objectives is to define excellence in office space. As part of this objective our annual Awards Programme provides public recognition for top quality design and functionality, and a benchmark for excellence in workplaces. The Programme acknowledges innovation and focuses external attention on examples of best practice.

Entries are submitted online and this guide will take you through this submission process step by step.

Please make sure you read this guide thoroughly to ensure that you give your project the best opportunity to stand out from the crowd.

ALL SUBMISSIONS WILL NEED TO BE COMPLETED BY 5PM ON FRIDAY 28 NOVEMBER 2014

BCO Awards
Chairman’s statement

Sometime down the line 2014 may be seen as something of a benchmark year for offices. With this year’s BCO entries it is apparent that developers and occupiers have adapted to the economic conditions of a recession hit market. The result is ground breaking, high quality projects which establish cost cutting as a science which will benefit long term office development. Occupiers now appreciate that the lifetime cost savings of a new green and ergonomically efficient office goes a long way to diminishing the upfront build costs.

The advances in sustainability are nothing short of astounding. In 2014 we saw the initial adoption of many technologies which in a few years’ time may be considered the norm. With the nominees for the Innovation Award we saw some incredible green techniques and products utilised, but we could also see how ergonomic thinking and application has moved on. Many of the entries were buildings which transformed the way the occupants performed their day to day tasks giving them a competitive advantage over their rivals. We also saw how space planning has evolved into an exact science that creates massive efficiencies in the use of work stations and progresses the delivery of communal areas.

The Test of Time category gives a practical demonstration as to why a building merits a BCO Award. The entrants exhibit exceptional workspaces adapting to ever changing business needs: They prove that quality endures.

We encourage you all to put forward your schemes for 2015. Every development opportunity faces different challenges; for which a variety of solutions evolve. Entering the BCO Awards gives the opportunity to celebrate these achievements; to learn from them and to recognise and reward the effort of those behind their delivery.

The National and Regional Judges anticipate another bumper crop of exceptional buildings in 2015 and look forward to deliberating over them.

Benefits of Winning a BCO Award

The BCO Awards are widely respected within the commercial property sector as they display the strength of British office design and illustrate a combination of excellence from the clarity of purpose in the brief; ingenuity of product; clever design solutions where appropriate; and delivery on time and within budget. Winning a BCO Award provides members of the project team with a multitude of benefits including:

REGIONAL & NATIONAL PROFILE
The BCO Regional Awards events feature all entrants. Winners are announced on stage and go forward to be shown in their winning category at the National Awards Dinner. In total a winning project is showcased in front of at least 1,500 individuals within the commercial property industry.

AWARD WINNERS SUPPLEMENT
As media partner of the BCO Awards, Estates Gazette publishes our annual Awards Supplement which is distributed to their circulation list of circa 25,000 individuals in addition to BCO members, and attendees at the National Awards Dinner.

PRESS
Media coverage cannot be guaranteed but each year the BCO team sends out post-event press releases listing our winners. In previous years coverage has appeared in Estates Gazette, Building Design, AJ Construction News, The Guardian, and The Times.

ONLINE PRESENCE
All winners are promoted in the Awards section of www.bco.org.uk/winners. As a winner your project will also be featured in our email newsletters and remain on our website as part of an ever growing library of previous winners.

A SHINING TROPHY & AWARD WINNERS’ LOGO
Share the news of your success by displaying in your reception area the eye-catching BCO trophy and certificate, which each winning project is awarded. Winners also receive a logo which can be used to promote your success in print and online.

MEMBERS TOUR
The BCO invite all winners to open their doors for a tour so that our members, and guests, can take a look around, hear about the successes of the project and meet the team. This provides an excellent opportunity for informal networking and business development.

JUDGES FEEDBACK
All entrants receive a copy of their score from the Judges in comparison to the median score awarded in their category.

Disclaimer: The BCO accepts no liability for any inaccurate information contained within the submitted entry as it is the responsibility of the applicant to provide accurate information.
This is the main part of the submission where you are asked to present your answers to the Judges’ questions in pdf format which you will need to upload to complete your submission.

General Guidelines
As the Judges access the project information mainly on their mobile devices during their judging tours, they ask to keep the file size of the main document to a minimum. Please bear in mind each Judge will be considering between 30-50 entries.

Therefore please make sure your main project document:
- does not exceed the maximum file size of 20MB
- includes between 5-10 photographs
- is a maximum of 25 pages long (including images)

Please do not include a full set of building plans. Usually a plan of basement, ground and typical upper floor will suffice, unless the upper floors differ significantly.

Please make sure to address ALL of the Judges’ Questions 1-9 in your submission and to complete the Specification Form and Sustainability Data Form. If technical information is difficult or impossible to obtain, please explain why it is not available in order that the Judges can take this into account when drawing up their conclusions. Any lack of information without adequate explanation will disadvantage your entry and could result in your project not being shortlisted for a Judges’ visit.

Whilst it is recognised that the opportunities and challenges set by each development are different and diverse, a key question for the Judges is whether the applicant team has made the best of the circumstances presented to them.

EXECUTIVE SUMMARY
The Judges recommend that you include an executive summary of no more than 200 words at the beginning of the submission, concentrating on the reasons why your entry stands apart and is worthy of a relevant award. The purpose of the summary is to act as a quick reference and reminder during the judging visits.
